Lemonade

<https://tikkido.com/blog/lemonade-recipe>

Lemonade Recipe:

- 1 part lemon juice
- 1 part simple syrup (made from equal parts water and sugar)
- 2 parts water

Instructions

1. Prepare the simple syrup by heating equal parts water and sugar in a saucepan, stirring until all the sugar has dissolved. Two cups of sugar and two cups of water makes approximately three cups of simple syrup.
2. Juice lemons and measure the volume.
3. Combine one part lemon juice, 1 part simple syrup, and 2 parts water. For example, if you had 2 cups of lemon juice, you would combine it with 2 cups of simple syrup and 4 cups of water.
