

A Recipe From *tikkido*

Strawberry Ice Cream

<https://tikkido.com/blog/strawberry-ice-cream-recipe>

Ingredients:

- One pound of fresh strawberries, hulled
- 3/4 cup sugar
- 1 cup sour cream
- 1 cup heavy whipping cream
- 1 teaspoon fresh lemon juice

Instructions:

1. Roughly cut strawberries, and combine with sugar. Let macerate for at least a half an hour.
2. Place strawberry mixture into a blender, and blend so there are no large chunks of berries.
3. Add the rest of the ingredients and mix to combine.
4. Pour mixture into your ice cream maker and follow the manufacturer's directions. (In my Cuisinart ice cream maker, it took 50 minutes of churning to make this fabulous strawberry ice cream.)
